

ZINC FLAKE COATING TECHNOLOGIES

BASE COAT

ZincoTech®底涂

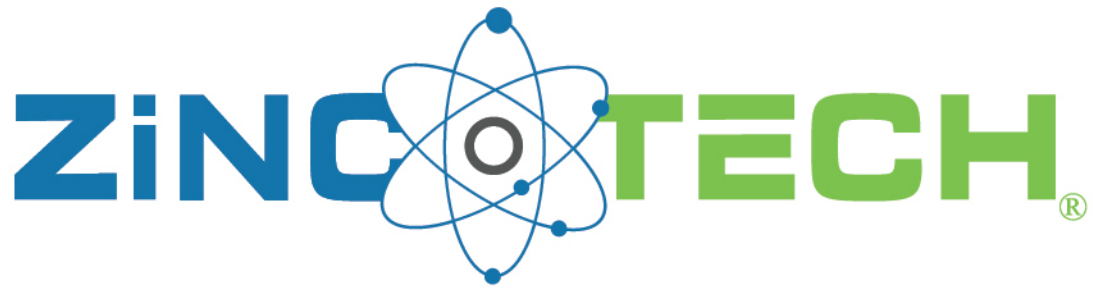

使用ZincoTech®底涂系列，可以实现高抗腐蚀性，工艺稳定性，易于应用和完美适应在不同表面素材。浸滴、浸旋、静电、标准喷枪等方法是ZincoTech®底涂的常用方法。

通过风干喷涂应用，已经为大型和难以固化的部件提供了解决方案。

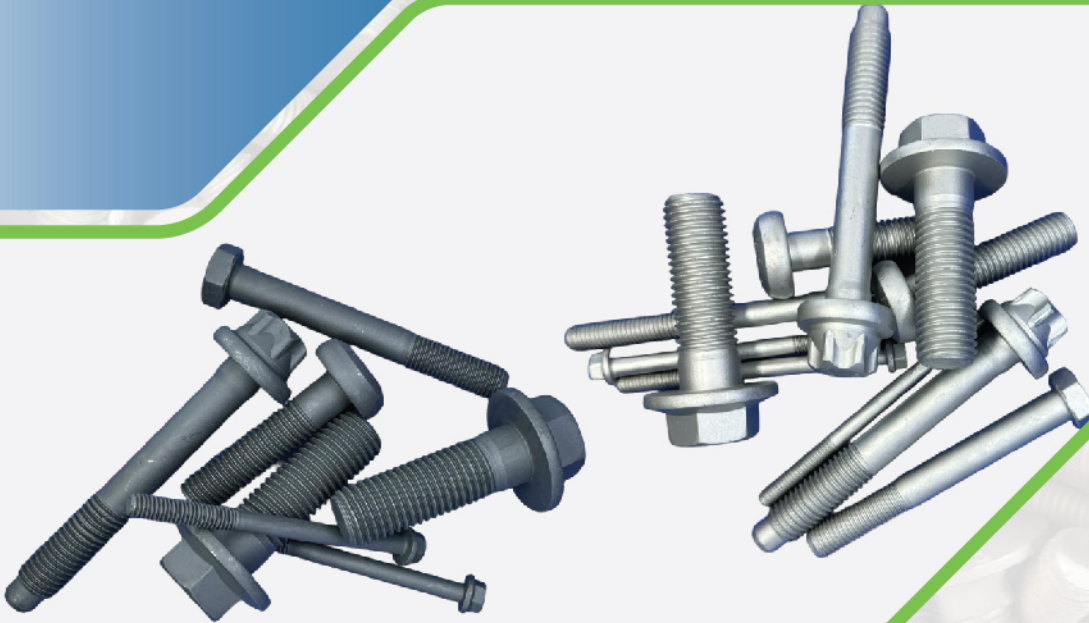

ZincoTech®喷雾罐可适用在对于不同表面的修复。

ZincoTech®黑色底涂与黑色面漆结合使用，不会出现银色剥落，涂层部分可以明显有更好外观，是比银色底漆和黑色面漆的更好选择。

通过使用我们开发的特殊应用方法，视觉性和功能性都将可达到了最高水平。

ZINC FLAKE COATING TECHNOLOGIES

BASE COAT

ZincoTech® Base Coats

With ZincoTech® Base Coat Series, all the goals of high corrosion, process stability, easy application and perfect adaptation to different surfaces would be achieved.

Methods such as dip-drain, dip-spin, electrostatic, standard spray guns are common for ZincoTech® Base Coats.

Solutions have been produced for large and difficult-to-cure parts by processing air-dried spray applications.

For repairing of different surfaces ZincoTech® Spray Cans are available.

ZincoTech® Base Black in combination with Black Top Coat shows no Silver flaking. Nice aspect will be on coated parts. Better alternative to Silver Base Coat and Black Top Coats.

Both visibility and functionality have reached the maximum level by using the special application methods that we developed.
